

Please do not allow LPFM stations to take priority over current FM translator service! There is sooo much value in K-LOVE FM stations. People's lives are changed daily b/c of the broadcasts and music played on K-LOVE. I, as well as thousands of others in my area, listen to K-LOVE, get information from it's news and programs, and are able to have a radio station that fits the entire family. I would be absolutely devastated if K-LOVE were to have to go off the air because of this new broadcast service. I know others in my community share the same feelings. Please do not replace the K-LOVE signal with an LPFM, which may not have the same family-friendly programming we all have come to enjoy. You would be doing America a disservice.
